

Innovations, product development and an eye for detail have made Epson Canada a leader in the image capture and image output industry.

We are currently looking to recruit a Web Developer whose focus will be on the development and maintenance of Epson Americas' web site(s). The candidate must be organized, detail oriented, possess the ability to prioritize workload, handle concurrent responsibilities and project tasks, and work individually and collaboratively in a team environment.

The successful candidate must have a proven background as a programmer and possess a minimum of 5 years experience in web development on an e-commerce site. Work is primarily in a Unix (Solaris, Linux) environment. Candidates should be ready to present examples of previous development work on existing public websites (if available) and/or on the programmer's personal site (if available).

Mandatory:

- Strong server-side web applications coding skills (asp, jsp, .net, php, etc.) in a production environment including interface to a relational database and serving dynamic web content
- E-commerce experience (e.g. shopping cart, credit card transactions, etc.) in a production environment
- Strong experience with HTML/dHTML, client-side JavaScript, cascading style sheets
- Some familiarity with Oracle database and SQL
- Experience with Unix
- Strong command of the English Language
- Experience with change control and code source control systems, e.g. SVN
- Excellent verbal and written communication skills
- Quick learner, self starter, with a proactive attitude

Strongly preferred:

- BroadVision experience (version 7.x)
- jsp (JavaScript server pages) experience
- Oracle 9i (or higher) experience
- Solaris/Unix experience
- Flash/ActionScript
- jQuery
- Experience with consumer products site(s), e-commerce web site(s)
- Knowledge of secure web application coding techniques
- Omniture Analytics

Desired, but not required:

- Experience with PERL scripting

- Unix shell scripting
- MQ series
- Web-caching technologies
- Bachelor's degree in a suitable field (i.e. Computer Science, EE, Math)
- Content management systems (Alfresco)

Terms of employment – 1 year contract position

Only qualified candidates should submit their resumes quoting Web Developer in the subject line to: hrcanada@ea.epson.com. Please include your salary expectation.

We thank all candidates who apply, however, only those selected for an interview will be contacted.
